# Communications

“We have to be confident with our ability to meet our customers’ needs and NewSat’s offering is integral to the success of that. We trust them with critical work of ours and they are able to provide us with facilities and services that others can’t, at competitive rates”.

**Glen Tindall, Regional Sales Director – SES World Skies**

# NewSat has the experience to engineer the most efficient, cost-effective solution, tailored to your specific environment.

As Australia's leading independent satellite communications company, NewSat provides satellite services to other communications providers. NewSat have the capabilities to "fill in the gaps" and extend the coverage of communication partners, allowing them to offer complete networks not restricted by remote locations. With two world recognised Australian teleports, NewSat have the expertise to offer multiple solutions based on the best-suited satellites and technology, tailored to each client's unique requirements. Whether it be providing dedicated point-to-point (SCPC) links or TDMA platform style solutions for corporate communications, NewSat is efficient and flexible in meeting the requirements of customers, adding value to their business propositions. NewSat also provide TT&C satellites management facilities and payload operations support. NewSat have many long lasting relationships with communications companies, together, creating and integrating solutions that best meet the needs of the end user.
