VSAT

Very Small Aperture Terminal (VSAT)

NewSat's VSAT services are ideal for clients in remote areas or those who have temporary short-term network connectivity needs.

VSAT

NewSat's VSAT services connect clients in some of the world's most remote regions and provide multiple solutions to their communication needs. NewSat's VSAT services can be deployed almost anywhere, making them ideal for business continuity and connectivity in remote, hard to reach locations or temporary sites.

Tailored to your requirements

Our clients choose NewSat due to our personalised application of cost-effective and secure voice, high-speed data and video Internet connections. NewSat's portable VSAT solutions are tailored for optimal delivery in communications, disaster recovery and security applications.

Turn-key solutions

NewSat has the in-house capability to offer total turn-key solutions for a VSAT network and currently supports more than 4000 satellite telecommunications services in Australia and within the Pacific Ocean, Indian Ocean, North and South East Asia, the Middle East and European regions. NewSat's VSAT services can be delivered using either of the world's leading VSAT platforms; Linkstar or iDirect.

Optimised for different services

Our VSAT solutions, whilst capable for all broadband applications, can be optimised for remote wide area network (WAN), video conferencing, voice communications, data/telemetry transmission, thin client applications and hosted services.

Customised connection to multiple sites on a single network

NewSat's VSAT services can connect all your sites on a single satellite and can be customised to suit any unique requirement. NewSat offers both low priced shared bandwidth or dedicated bandwidth with high throughput, thereby offering a solution to suit every client.

Performance assurance and security

Both NewSat's Network Operation Centre's (NOC) provide 24 x 7 x 365 support and meet US Military Accredited security levels.

Optional products and services

- Multi-site network connections
- Video conferencing
- Pre-paid calls
- GSM connectivity
- Entertainment systems
- Backpack VSAT
- Trailer VSAT
- Rental VSAT
- Connectivity to private networks and VPN's
